

Information re: projector for the SCSWG

The selected model is an Epson VS355 WXGA 3LCD Projector. Currently priced at \$539.99 CDN. This will meet the needs of our group for presentations. This unit falls in the low price range of current projectors. As such it will not provide powerful audio speakers.

This is a high resolution projector with sufficient colour brightness for the room we typically use for presentations, it offers HDMI connectivity. Bulb life for this unit is 6000 hours in normal mode and 10,000 hrs in ECO mode. Replacement bulbs cost roughly \$100.

This is a link to the [Epson Canada VS355WXGA 3LCK Projector information page](#). If this purchase is approved I will of course check to see if any vendor is offering a sale price.
